

# **Fire up your future with our INTENSIVE IELTS PREPARATION COURSE**

**IELTS™**  
English for International Opportunity

**This course is ideal for candidates who have already taken the exam but need to achieve a higher score.**

Many IELTS candidates do not get the band score that they should because they are not familiar with the IELTS Test format.

**Our IELTS Intensive Preparation Courses is designed to give candidates:**

- **A very good understanding of the IELTS Test**
- **Practice in the 4 essential skills for the Test: Listening, Reading, Writing and Speaking**
- **A full “mock” (practice) test under examination conditions**
- **Individual feedback and constructive error correction**

**The maximum number of students in a group is 10 so the teacher is able to give a lot of individual help and support.**

7:00-9:00pm

**Location:** ITS Tutorial School, 3/F, Sun House, 181 Des Voeux Road, Central

**\*Materials and Study notes are provided by ITS Tutorial School**

## **Course Details**

**Placement test:** This is designed to enable us to gauge the approximate level of a student and to ensure that you are at a suitable level for the course. This course caters for upper-intermediate level and above, so students will need to demonstrate that they can score approximately 65% or more in the placement test for entry to our IELTS English course.

\*We offer a Pre-IELTS course for those people who do not yet have the English level required for entry to the intensive preparation course - please contact us about this.

**Skills development:** Development of the skills of reading, writing, listening and speaking through meaningful practice.

**Task-based activities:** Activities designed to improve fluency, such as discussions, pair and group work, role-plays, problem-solving, so you will be ready for the interview section of the IELTS test.

**Systematic Activities:** These activities focus on grammar, vocabulary and pronunciation for the IELTS test. Students will learn and use new language forms and vocabulary through practice in contemporary, realistic, everyday situations, similar to those that they will be examined on in the IELTS test itself.

**Constructive Feedback and Error Correction:** We teach students effective ways of learning, from efficient note-taking to ways of storing and utilising vocabulary.

**Mock IELTS Test:** These are designed to show us how well a student is improving and how well he or she is able to apply the new skills in reading, writing, listening and speaking for the 'real test'.

**Classroom Tutorials(24 hours):** To provide hands-on feedback, so that teachers can pass on hints, tips and advice on how best to study, as well as address any problems shown up by student's performance in class and in their progress tests. The tutorials also gives students an opportunity to asks questions and seek help in areas they are finding particularly difficult.

**Homework:** An essential part of the course – consolidates classwork and provides extra practice in all four skills.
