

# ONE-TO-ONE ENGLISH COURSES

## One-to-One Tuition at ITS Tutorial School

These programmes are highly intensive where your specific needs can be met. We design a specific programme to suit your level and your learning requirements.

We accept bookings for one-to-one classes at any level and the schedule is very flexible. Before you begin your lessons you will meet with your assigned teacher and he/she will discuss your needs with you. You will also need to sit a short test so we can evaluate your proficiency level.

Through dramatic role-plays and effective speaking exercises, you will experiment with different styles of communication and experience the results first hand.

You will learn to abandon negative communication habits that build on new vocabulary and language, while developing powerful communication and interactive techniques that evoke positive relationships.
